

"The 1st Airskoi World Koi Show" Guide

All Japan Nishikigoi Promotion Association
Board Chairman Hisashi HIRASAWA

Utilizing AI technology, we will hold an unprecedented global online Koi Show. The event is for Koi hobbyists, breeders and dealers to easily join "Koi show" together. It is also intended to expand the circle of international goodwill as well as promoting the hobby to the general public.

As shown below, We have planned the guidelines to the world competition using the industry's first AI APP "Airskoi".

1. Event details

- ① **Qualification of Exhibitors:** Koi Hobbyists, Dealers and Breeders from all over the world
- ② **Qualification of Koi:** For Nishikigoi from all over the world.
- ③ **Categories for entered fish:** **ONLY KOHAKU**, 45BU to Over 90BU, 4 divisions, 11 parts

- ④ **Entry photos and video:** No photo modification, only images taken within the "Airskoi" app can be entered. * It is recommended to use "Color palette".

Shooting Items	<ol style="list-style-type: none"> 1. Photo from the front (required) 2. Photo showing the size (required) 3. Photos from both sides (optional) 4. Video of the entire front and each part and whole of the Koi on both sides (20-40 seconds)
----------------	---

■ Examples of entry photos

1. Front(required)	2. Size (required)	3. Left side (optional)	3. Right side (optional)
			

■ Examples of entry video

■ Color palette

■ Shooting considerations

- The body must be straight,
- Mouth closed
- The fins must be open
- The gills are closed
- Shooting at the same time as the color palette (recommended)
- The lighting should not hit only part of the carp or the color palette
- Shoot larger than the silhouette image
- Avoid reflections of light on the surface of the water

Shooting example

⑤ **Judging method:**

- A basic examination using AI was conducted, and the top five films in each division were selected.
- The final video check of the Koi linked to the top 5 places by AI by the judges.
